Marge Burnette, LAGEDA

Washington County Test Center will follow the Virginia Highlands Community College schedule. In the event the VHCC campus is closed, no testing will be held.

In the event Virginia Highlands Community College is on a two hour delay, testing will begin as normal. Students should report by 8:45 am. Testing room doors close by 8:55 am. Geographically, we are very diverse so anyone who does not feel safe traveling should contact our office to reschedule.

If testing at another center or location other than VHCC, contact the local test center to confirm testing times and/or closings.

When we have cancelled testing due to bad weather, all examinees will automatically be moved to the next available test date at the same location. Please call your local test center to confirm.

If testing has already started a test and bad weather moves in... we will close testing down as quickly as possible. Examinees are required to complete any test they have begun, but we will expect all examinees to have rides available and waiting upon completion of that subsection of the test. This will be strictly followed... none of the staff will be expected to stay and wait for examinee rides to arrive in the event of unexpected and fast moving weather systems.
